

Argos OnBoard for Konica Minolta

Accurate and Easy Print, Copy, and Scan Tracking

Argos OnBoard tracks copying and scanning right from the panel of your Konica Minolta bizhub or AccurioPress printer. With As-Printed Tracking, Argos OnBoard for Konica Minolta works with or without a print server—even in a serverless cloud environment for ultimate flexibility. Argos works around your print workflows instead of interrupting them.

Beautifully Reported

Argos shows you every document, organized by user, department, printer, location, paper type, client, and more. With over twenty professionally-designed reports, and hundreds more available, you'll see your print and copy expenses with clarity and precision. Every Argos report is customizable because it's built on Crystal Reports, the industry-standard reporting engine.

Features

- Embedded all-software solution
- PIN code or Prox card authentication
- Secure Print and Pull Print functionality through Argos Print Release
- Cost recovery for client bill-back
- Flexible cost calculator models any scenario
