

# Argos OnBoard for Canon Large Format

Argos tracks Canon Large Format printing directly from the printer, for accurate and reliable print tracking with or without a print server.

## Advanced Tracking for Advanced Printers

Argos goes beyond traditional color and BW pricing on large format printing, by categorizing documents based on ink density, so you can charge different prices for line drawings, maps, full color photos, and more. And because Argos is integrated directly into your printer, you track exactly what was printed—nothing more, nothing less.

## Keep Your Workflow

Argos adapts to how you print rather than forcing your users to a specific process. Argos works with or without print servers, in the Cloud or on-premise, and is compatible with tools like Onyx, AutoCAD, Revit, and more.

## Supported Printers

Argos Canon Large Format integration is compatible with most imagePROGRAF, Pro, TA-Series, TM-Series, and TX-Series printers from Canon, including:

### iPF Series

- iPF650, iPF655, iPF670, iPF680, iPF681, iPF685, iPF686, iPF750, iPF755, iPF760, iPF765, iPF770, iPF780, iPF781, iPF785, iPF786, iPF815, iPF825, iPF830, iPF840, iPF850, iPF6300, iPF6300S, iPF6350, iPF6400, iPF6400S, iPF6410, iPF6410S, iPF6450, iPF6460, iPF8300, iPF8300S, iPF8310, iPF8310S, iPF8350, iPF8400, iPF8400S, iPF8410, iPF8410S, iPF9400, iPF9400S, iPF9410, iPF9410S

### Pro Series

- PRO-1000, PRO-2000, PRO-4000/4000S, PRO-6000/6000S

### TA Series

- TA-20, TA-30

### TM Series

- TM-200, TM-300, TM-305

### TX Series

- TX-3000, TX-4000
